

# Cybersecurity@CEPS Summit 2018

## Quo vadis EU?

Thursday 6 December 2018

CEPS - Place du Congrès 1 - 1000 Brussels

Cyberattacks are a critical threat for the European Union and its member states. Not only does cyberspace form the backbone of the digital single market, it is deeply embedded in the EU's goal of a Security Union. However, while 2018 has seen the growth of threats, especially from nation states that are militarising cyberspace for political ends, there have also been a wealth of cyber initiatives from the European Commission, the Council and the Parliament.

What is the status of the EU's current efforts to create resilience and enhance deterrence in cyberspace? Do we need additional measures to increase awareness, develop smarter policy and establish more effective governance? Is the European cyber space safer today? Are EU leaders meeting the challenge of facing future cybersecurity threats?

These and more questions will be raised and hopefully answered at our conference.

### AGENDA

**08:45-09:15** Registration and welcome coffee

**9.15-11.00** Opening Session: Quo Vadis EU?

**Welcome:** **Lorenzo Pupillo**, Head of the Cybersecurity@CEPS Initiative

#### Key note speakers

**Carl-Christian Buhr**, Deputy Head of Cabinet Commissioner Mariya Gabriel

**Raji Samani**, CTO, McAfee

**Giorgio Mosca**, Director Strategy and Technology in the Security Division of Leonardo

**Julie Ruff**, Member of Cabinet Commissioner Julian King

Q&A

Event supported by:

# Cybersecurity@CEPS Summit 2018

**11.00-11.15 Coffee break**
