2015 global climate deal: what business wants

Giles Dickson
Vice President, Environmental Policies and Global Advocacy

21/05/2013
What will make us invest?

1. Clarity on emissions reductions pathways
2. As much CO2 pricing as possible
3. Mobilisation of supporting finance
1. Clarity on emissions reductions pathways

- Level of ambition more important than legal nature of commitment
- Trade-off between ambition and legal nature
- Not just about the CO2 commitments
2. As much CO2 pricing as possible
3. Mobilisation of supporting finance

• Some public money (GCF)

• Confidence that public money will mobilise private funds

• Right supporting policies …. 
.... supporting policies

• Capacity to absorb investments:
  ➢ stable policy and legal framework
  ➢ physical / industrial / financial infrastructure
  ➢ skills

• Supportive financial instruments:
  ➢ loan guarantees
  ➢ structured debt
  ➢ PPA underwriting
  ➢ policy / political insurance
  ➢ green bonds
  ➢ green banks
Sharing risk between public and private sector

- Public sector
- Public/Private sector
- Private sector
- Public/Private sector

Allocate risks to those best placed to handle them
Thank you
