SCOPE OF THE TRAINING SCHOOL

The Training School falls within the project “Migration and Asylum in Europe and EU-Canada Relations”, funded by the European Commission, Directorate-General for External Relations, Relations with the US and Canada. The project studies EU-Canada cooperation on migration and asylum policies. It aims at providing a better understanding of the conceptual, political, sociological and legal elements and dilemmas characterizing the development of common European public responses around these issues, and their implications for the relationship between liberty and security in EU-Canada relations.

The event focuses at exploring from an interdisciplinary perspective the reframing of the EU external border as a consequence of the various ways in which the internal and external dimensions of EU policies on asylum, visa and immigration intersect and engage with each other. The Training School seeks to provide the researchers presenting their papers with the opportunity to debate their position on these sensitive issues with experts and policy-makers. This event will be structured around two panel discussions in which papers will be presented and discussed by experts on the subject.
