

Comments

1. Link to Green Tax Reforms
2. Charges/Tariffs/Fees vs Taxes
3. Link to other concepts:
Green Growth - Green Economy –
Resource Strategy/Roadmap/Panel –
Sustainable Development
4. 3 Ts: Taxes-Tariffs- Transfers
- LDCs, Emerging Countries and EU/OECD
- Population and Demography

1. Equity-fairness in investment
 - in a country
 - in Europe
 - overinvestment in some countries/regions
2. PAC
 - finally a change of structure for 2014-20
 - 1/3 Env. related, 2/3 Env. conditioned

European Federalism

Adequate – Proportionately – Taking into account

Best practices mythology

Comments

1. Italy, a precursor
2. Water Reform 1993
3. Water Referendum 2011

1. OECD
2. Water and Climate Change in Green Growth
3. In times of Economic-Financial Crisis
4. Pre-existing Environmental Crises:
 - Climate Change – Water – Resources – Biodiv.
 - Yearly Public Deficit / Accumulated Public Debt
 - Ecological Deficit / Ecological Debt
 - Opportunity for financing Water
