

# CARBON MARKET FORUM

*Thinking ahead for Europe*

## EU ETS Market Stability Reserve

### DRAFT AGENDA

Date: October 8, 2014

Time: 13 :00 – 15:00 pm

Venue: EU Parliament

**Host: Peter Liese, MEP (EPP)**

One important element in the January 2014 proposal of the European Commission 2030 framework for climate and energy policies is the creation of a potential market stability reserve for the European carbon market. This mechanism is not the only proposal for structural reform of the EU ETS. Discussions on including the MSR in the EU ETS architecture, in order to provide flexibility on the supply side of the market, have been taking place since March 2013 at the European level. The Carbon Market Forum is now expressing its views on the proposed Market Stability Reserve through a paper, which will be presented in this session in the EU Parliament.

**12:30 Light Lunch**

**13:00 Welcome and Introduction**

- Peter Liese, MEP (EPP)

**13:20 Presentation of CEPS' paper on Market Stability Reserve**
