# Ensure access to affordable, reliable, sustainable and modern energy for all

## TARGETS

**7.1**  
By 2030, ensure universal access to affordable, reliable and modern energy services

**7.2**  
By 2030, increase substantially the share of renewable energy in the global energy mix

**7.3**  
By 2030, double the global rate of improvement in energy efficiency

**7.a**  
By 2030, enhance international cooperation to facilitate access to clean energy research and technology, including renewable energy, energy efficiency and advanced and cleaner fossil-fuel technology, and promote investment in energy infrastructure and clean energy technology

**7.b**  
By 2030, expand infrastructure and upgrade technology for supplying modern and sustainable energy services for all in developing countries, in particular least developed countries, small island developing States, and land-locked developing countries, in accordance with their respective programmes of support
