

Net zero carbon: what roles for CCS/CCUS?

Tuesday, 4 December 2018

09:15-12:45

CEPS, Conference Room

Place du Congrès 1, 1000 Brussels

Informal Discussions under Chatham House Rule

This CEPS Energy Climate House (ECH) workshop will discuss the possible roles of CCS/CCSU, sinks and BECCS for the EU long-term strategy. To inform discussions, CEPS ECH will present a short background report, which is meant as a catalyst for a discussion to bring negative emissions technologies to the market. A high-level follow-up meeting is planned for **31 January 2019**.

Agenda

(Speakers are confirmed unless otherwise indicated)

- 08:45-09:15 Registration and welcome
