

Policy Challenges for the EU Cybersecurity

Online Event

2-3 December 2020

From 9.30 to 13.00

CEPS

In its *Shaping Europe's digital future* communication, the European Commission gave great impetus to digital policy and envisages a key role for EU cybersecurity strategy, in particular.

The review of the Directive on security of network and information systems (NIS Directive) has been brought forward to 2020. The Commission is now assessing cybersecurity requirements for ICT products, implementing the new cybersecurity certification framework under the Cybersecurity Act and has identified the need for a Joint Cyber Unit to provide structured and coordinated operational cooperation that could include a mutual assistance mechanism in times of cyber crisis at EU level.

What challenges are involved in moving from this wealth of policy initiatives to action and policy implementation? How is the rapidly evolving threat landscape and the use of AI and new technologies changing the approach to cyber resilience? And what role could Europe play in global cybersecurity governance to reform the multilateral system and respond to the recent call by Commission President Ursula von der Leyen for a *Digital European Decade*?

These and more questions will be raised and hopefully answered at our conference, which will contribute to outlining the next steps towards European Union Cybersecurity.

Operators' Association

WAVESTONE

Cybersecurity@CEPS Summit 2020

AGENDA DAY ONE – December, 2nd

9.30-11.00 Opening Session

Welcome

Lorenzo Pupillo, Head of the Cybersecurity@CEPS Initiative

Keynote speakers

Andreas Mitrakas, Head of Data Security and Standardisation Unit, ENISA

Raj Samani, McAfee Fellow, Chief Scientist

Lise Fuhr, Director General ETNO

Q&A

11.00-12.00 Session I: The review of the NIS Directive: make-up or far-reaching changes?

Alessandro Zamboni, Partner and Head of Wavestone European Services

Florian Pennings, Senior Policy Manager, Microsoft

Jakub Boratynski, Head of Unit Cybersecurity and Digital Privacy -DG CONNECT

Sandra SCHMITZ, University of Luxemburg

Chair: **Luigi Rebuffi**, Secretary General European Cybersecurity Association

12.00-12.15 Virtual Coffee break

12.15-13.15 Session II: Cybersecurity for ICT Products: from voluntary approaches to minimum security requirements?

Ross Anderson, University of Cambridge, Computer Laboratory -

Aristotelis Tzafalias, Policy Officer DG CONNECT

Mark Smitham, EU Public Affairs, Huawei

Frederico Oliveira Da Silva, Legal Officer & Digital Team Cybersecurity Specialist, BEUC

Chair: **Ghislain de Salins**, Policy Analyst Digital Security, DSTI, OECD

Event supported by

European Telecommunications Network Operators' Association

WAVESTONE

Cybersecurity@CEPS Summit 2020

AGENDA DAY TWO – December, 3rd

10:00-10.50 Opening Session

Welcome

Lorenzo Pupillo, Head of the Cybersecurity@CEPS Initiative

Keynote Speakers

Robert Dehm, Attache, Information Society and Telecommunications,
Permanent Representation of Germany to the EU

Gerome Billois, Partner - Cybersecurity and Digital Trust - Wavestone

Q&A

10:50-11.50 Session III: Artificial Intelligence and cybersecurity: a way towards enhancing the synergies?

Maria Rosaria Taddeo, Oxford University

Ioannis Askoxylakis, Cybersecurity Policy Officer, European Commission

Marko Hartwig, Chief Information Security Officer EMEA Region, Zurich Insurance Group

Lorenzo Pupillo, Head of the Cybersecurity@CEPS Initiative and Coordinator of the CEPS Task Force on AI & Cybersecurity

Chair: **Andrea Renda**, Senior Research Fellow and Head of the GRID Unit at CEPS

11:50-12:05 Virtual Coffee Break

12.05-13.05 Session IV: Global Data Governance and Digital Sovereignty

Wolfgang Kleinwachter, Professor Emeritus University of Aarhus

Andreas Tegge, Head of global public policy, SAP

Elettra Ronchi, Head of Data Governance and Privacy Unit, Digital Economy and Policy Division, OECD

Pierre Chastanet, Head of Unit, Cloud and Software, European Commission

Chair: **Paul Timmers**, Oxford University

13:05-13:10 Conclusions

Event supported by

European Telecommunications Network
Operators' Association
